T.H.E. FARM at Strongwater is a non-profit organization providing a variety of programs, from therapeutic riding to horsemanship skills, barn management and general horse care. All of our programs are designed to meet the specific needs of clients with abilities or disabilities of all levels. We service the needs of the Tewksbury Hospital clients as well as the local community.

Equestrian Competitions for the disabled have started to spread across the country. The Strongwater site at T.H.E. FARM is a convenient pastoral location where a three-day show can be successfully held. Strongwater is the perfect spot with its miles of trails and show rings. The site, though primarily designed to host T.H.E. FARM's special events, can accommodate fine agricultural shows and competitions. Revenue from Strongwater will go to support T.H.E. FARM and the equestrian programs offered there providing therapeutic riding opportunities to the clients of Tewksbury Hospital and the surrounding community.
